

WIRELESS MANAGEMENT MADE SIMPLE

WIRELESS EXPENSE MANAGEMENT

How does Spectrum Mobile reduce wireless costs an average of 25% over the first year?

We know the market. Spectrum Mobile will recommend cost-effective ways to structure your plans while also taking advantage of all possible incentives and promotions. Then our telecom expense management process will provide real time, actionable usage information that can prevent billing mistakes and overages before they happen. That's just the start. Contact us to learn how we can lower your monthly wireless costs for the long term!

ENTERPRISE WIRELESS SOLUTIONS

Is your wireless management strategy improving efficiency?

Based on your company's goals and objectives, we'll recommend a customized plan that integrates devices, applications, and software across your company in a way that will help drive the business. As new technology emerges, we'll determine if it's right for you and coordinate the transition. Learn how Spectrum Mobile can optimize and streamline mobile productivity within your organization!

MOBILE DEVICE MANAGEMENT

Are wireless devices deployed quickly and seamlessly within your company?

Spectrum Mobile will put the right technology in the hands of the right people. Before integrating the technology into work processes, monitoring employee use, and upgrading or replacing devices—Spectrum Mobile will discuss the options with you and recommend the solutions that are in your best interest in these areas and more. Schedule a no-obligation meeting with our team to learn how we can take managing mobile devices off your plate!

WHAT CAN SPECTRUM MOBILE SERVICES DO FOR IECRM MEMBERS?

PARTNER WITH YOU

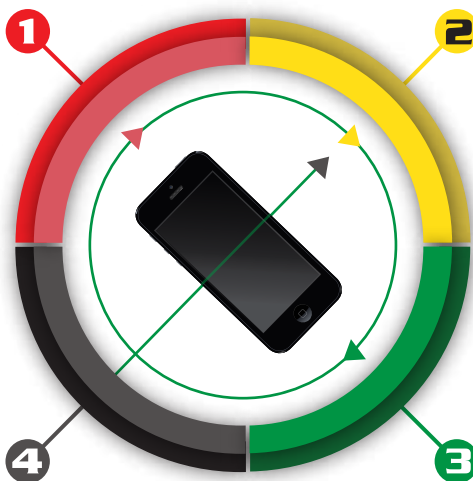

We don't just sign you up and turn you over to a carrier. Spectrum Mobile has the expertise and experience to be your valued partner for the long haul. We're invested in your long-term success and we share your goals of creating work process efficiencies and delivering savings and service month after month, year after year.

CREATE VALUE

Don't overpay for wireless devices and contracts. Save money from the start thanks to our acquisition and billing strategies. Then enjoy the ongoing savings generated by our value-added services related to bill reviews and discrepancy/error prevention or resolution.

UPGRADE YOUR DEVICES

When it makes sense for you to upgrade to new devices, Spectrum Mobile will coordinate all the details: from researching costs, to capturing credits and cash value for the old devices, to safe and secure disposal, to seamless integration of the new technology into your workplace.

SUPPORT YOUR TEAM

We partner with you and your team. We'll quickly resolve your carrier disputes and questions—often with a single call. From device training to trouble-shooting, we'll help your employees enjoy uninterrupted wireless productivity. You will work with the same person at Spectrum each time you need us, someone who knows your wireless device strategy and shares responsibility for your success.

Don't wait any longer to enjoy wireless savings and efficiencies! Please contact us today to schedule a no-obligation consultation and analysis.

"Spectrum Mobile Services has provided our company with excellent ongoing mobile management services such as inventory management, device setup, and field deployment. In addition, Spectrum has also helped us save over \$10,000 annually on our company cell phone bills. We would highly recommend them as a strategic business partner for any IECRM member."

- Brandon Berumen, CEO of LEI Companies
