

YOU ARE INVITED

REXEL EXPERIENCE
ENERGY EXPLO

**LEARN TO LOWER COSTS AND IMPROVE YOUR BOTTOM LINE.
THIS IS ONE EVENT YOU CAN'T AFFORD TO MISS.**

6th NOVEMBER 2015 9:30AM-2:30PM

MILE HIGH STATION 2027 Old West Colfax Ave, Denver, CO 80204

WHAT WILL YOU EXPERIENCE?

Lighting and controls technology: The dual effect of having new codes and cutting edge LED technology being introduced at record speed has driven the retrofitting of existing buildings to new highs. These technologies are now commonplace in a number of facilities locally and nationally. This show will educate contractors and facility users on how to pick the best technology and manage the change to LED and controllable lighting.

Solutions: Having the right financial programs to improve ROI and cash flow makes the investment needed to change significantly more attractive. Learn about the multiple ways of making these projects pay for themselves faster.
